PRODUCTOS

# Nuevo TXMulti

## TX MULTI

**Nuestro nuevo TXMulti**  
es compatible con los  
receptores ya instalados  
de hasta 25 marcas!

**Compatible para rolling  
code y código fijo!!!**

## TX MULTI

PRODUCTOS

**Tx Multi** esta fabricado  
con una carcasa de  
acero

## TX MULTI

Una tapa en la parte posterior del mando, nos facilita el acceso a la batería, así como a unos interruptores (switches) con los que podremos seleccionar fácilmente la marca a utilizar de entre 25 marcas diferentes. Una cubierta de goma protege los switches.

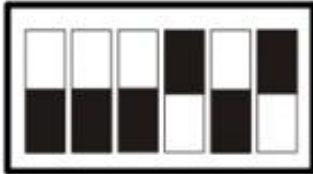

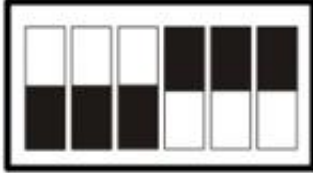

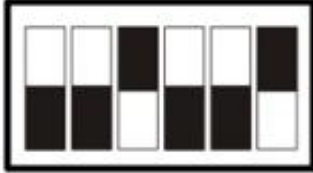

# MANUAL (\*)

| Item | The dip switch selection                                                            | R/F             | Brand                                                                                                                            |                                                                                       |                                                                |
